Your chance to make a difference...and meet Wayne!

TransAlta's Project Planet Challenge encourages school-aged children to come up with innovative, grassroots projects that enhance the environment in their neighbourhood, community or school.

Project Planet 2000 was a wonderful success – hundreds of students submitted an astonishing variety of ideas on how the environment can be sustained. Two individual

and two group entries were chosen, and not only had their projects implemented by TransAlta, but also got the opportunity to meet Wayne Gretzky in person.

Project Planet will run Jan. 15 to Mar. 16, 2001 in Alberta and Ontario schools. Visit our Web site to learn more.
